Abstract	ix
CHAPTER - 1: INTRODUCTION	1
1. Diabetes mellitus	2
1.1. Increasing Burden of T2DM.....	2
1.2. Homeostasis.....	2
1.3. Metabolic homeostasis	2
1.4. Glucose homeostasis.....	2
1.5. Pre-diabetes	4
1.6. Risk factors for Type 2 Diabetes	5
1.6.1. Non-modifiable risk factors for T2DM.....	5
1.6.1.1. Family history	5
1.6.1.2. Ethnicity	5
1.6.1.3. Age.....	5
1.6.1.4. History of gestational diabetes	5
1.6.1.5. Modifiable Risk Factors for Type 2 Diabetes	5
1.6.1.6. Overweight/obesity	5
1.6.1.7. Physical inactivity.....	6
1.6.1.8. Abnormal cholesterol (lipid) levels.....	6
1.6.1.9. High blood pressure (hypertension)	6
1.7. Pathology in T2DM	7
1.7.1. Ominous octet	7
1.7.2. T2DM - a condition of disruption in glucose homeostasis in T2DM	7
1.7.3. Dysregulation of glucose homeostasis- Central nervous system	7
1.7.4. Stress and autonomic deregulation.....	8
1.7.5. Deregulation of glucose homeostasis due to Immune system variation in T2DM	8
1.8. <i>Yoga</i>	Error! Bookmark not defined.
CHAPTER - 2 : ANCIENT LITERARY RESEARCH	
2. Concept of Homeostasis according to <i>Āyurveda</i> and <i>Yoga</i>	11
2.1. Definition of health according to <i>Āyurveda</i>	12

2.2. Concept of <i>Tridoṣa</i>	13
2.3. Correlating homeostasis and <i>Samatva</i>	13
2.3.1. <i>Prakṛti</i> - Balanced	14
2.3.2. <i>Vikṛti</i> (Dysbalanced).....	15
2.4. Diabetes mellitus, according to <i>Āyurveda</i>	16
2.4.1. Definition of Diabetes (<i>Madhumēha</i>)	17
2.4.2. <i>Pramēha-Nirukti</i> (Derivation): Definition of the word <i>Pramēha</i>	17
2.4.3. Altered homeostasis (<i>Samatva</i>) in <i>Pramēha</i>	17
2.4.4. Classification of Diabetes (<i>Pramēha</i>): Basis of dominant <i>Doṣa</i> disturbance.....	18
2.4.5. Classification of <i>Pramēha</i> on the basis of pathophysiological process	19
2.4.6. Etiology (<i>Nidana</i>) of Diabetes (<i>Pramēha</i>) and Diabetes Mellitus (<i>Madhumēha</i>)	20
2.4.7. <i>Apathyamittajā Nidāna</i> or <i>Sāmānya</i> (common) <i>Nidāna</i>	21
2.4.8. <i>Ahāra nidāna</i> -Types of foods that aggravate <i>kapha</i> that results in <i>Pramēha</i>	22
2.4.9. <i>Vihāraja-Nidāna</i>	22
2.4.10. <i>Bījadoṣa</i> : (Genetic factor) (<i>Ch. Chi6/57, Ch.Ni.4, Su. Ni. 6</i>).....	23
2.4.11. Evolution from <i>Pramēha</i> to <i>Madhumēha</i>	23
2.4.12. Clinical manifestation of <i>Madhumēha</i> –symptoms appear in two stages i.e. <i>pūrvarūpā</i> (prodromal) and <i>rūpā</i> (manifest):.....	23
2.5. <i>Samprāpti</i> of <i>madhumēha</i> (Pathogenesis).....	26
2.5.1. <i>Ṣaṭha Kriyākāla</i> - Pathogenesis of <i>Pramēha</i>	26
2.5.2. <i>Madhumēha</i> due to <i>Mārgāvaraṇa</i> : (<i>Ch.Ni.4, Su.Ni. 6, Ch.Chi.6/55</i>).....	29
2.5.3 <i>Madhumēha</i> due to <i>Dhātukṣaya</i>	29
2.5.4. <i>Samprāpti ghaṭaka</i> : Pathology in different structures of the body	29
2.5.5. Diabetes according to <i>Yoga</i> philosophy- Pathogenesis of T2DM.....	30

CHAPTER 3 : SCIENTIFIC LITERATURE REVIEW

3. Introduction	39
3.1. <i>Yoga</i> and Blood glucose control.....	40
3.2. <i>Yoga</i> and cardiovascular disease (CVD) in T2DM	41

3.3. <i>Yoga</i> for Dyslipidemia.....	42
3.4. <i>Yoga</i> and atherosclerosis	42
3.5. <i>Yoga</i> Improves nerve conduction	43
3.6. <i>Yoga</i> improves cognitive functions	43
3.7. <i>Yoga</i> and Mental Health in T2DM	43
3.8. <i>Yoga</i> for Autonomic dysfunction	44
3.9. Studies on Mechanism of <i>Yoga</i> in T2DM	44

CHAPTER 4 : EXPERIMENTAL STUDIES

Study - I

4. Introduction.....	46
4.1. Aims and objectives.....	466
4.1.1. Aim.....	466
4.1.2. Objectives.....	466
4.1.3. Hypothesis	466
4.1.4. Null hypothesis.....	466
4.2. Design of the study	477
4.3. Methodology.....	477
4.3.1. Study participants	477
4.3.2. Inclusion criteria and Exclusion criteria.....	477
4.3.3. Ethical consideration	488
4.3.4. Assessments	488
4.3.5. Intervention	488
4.4. Data analysis	500
4.5. Results	500
4.5.1. Demographic details.....	500
4.5.2. Reduction in standard deviation after <i>Yoga</i>	533

Study 2:

4.6. Introduction	577
4.7. Aims and objectives.....	577
4.7.1. Aim.....	577

4.7.2. Objectives	577
4.8. Hypothesis	588
4.9. Null hypothesis	588
4.10. Material and Methods	588
4.11. Inclusion and exclusion criteria	588
4.12. Ethical Considerations	588
4.13. Intervention	59
4.14. Assessments	611
4.14.1. Blood glucose	611
4.15. Results	611
4.15.1. Hanges in medication score.....	633
4.15.2. Changes in Respiratory rate	654
Study 3:	
4.16. Aim.....	66
4.17. Objectives.....	66
4.18. Hypothesis.....	67
4.19. Null hypothesis	67
4.20. Design of the study	67
4.21. Materials and methods	67
4.22. Source of participants.....	67
4.23. Inclusion criteria.....	68
4.24. Exclusion criteria:	68
4.25. Ethical clearance and informed consent.....	68
4.26. Statistical analysis	68
4.27. Results	68
4.27.1. Demographics.....	68
4.27.2. Family history of T2DM	68
4.27.3. Co-morbidities.....	71
4.27.4. Hypertension	71
4.27.5. Dyslipidaemia.....	72
4.27.6. Comparison of Biochemical variables	73

4.27.7. C-Peptide.....	73
4.27.8. Pancreatic polypeptide	74
4.27.9. Renal Profile.....	77
4.27.10. Stress profile.....	81
4.27.11. Lipid profile.....	82
4.27.12. Psychological variables	83
4.27.13. Systemic metabolic Homeostasis	85
4.27.14. Significantly Differentially Regulated Pathways:.....	91

CHAPTER 5 : DISCUSSION

5.1. Yoga and glycemic non-Yoga.....	93
5.2. Comparisons.....	95
5.3. Comparisons of glycemic control	96
5.4. Mechanism	97
5.6. Beta cell dysfunction.....	97
5.7. Increased Hepatic glucose production	99
5.8. Glucose re-absorption	99
5.9. Glucose uptake	100
5.10. Yoga promotes Homeostasis.....	100
5.11. Inflammation and T2DM	101
5.12. T2DM and platelet aggregation	101
5.13. Relationship between inflammation, immune system, cytokines, and platelet aggregation and pathology of T2DM	102
5.14. T2DM and systemic inflammation.....	102
5.15. Insulin Resistance and stress induced kinesis	103
5.16. Mechanisms.....	108
5.16.1. Autonomic regulation.....	107
5.16.2. Reduction in HPA axis activity	107
5.16.3. Anti-inflammatory activity of <i>Yoga</i>	107
5.16.4. Molecular Genetic mechanism.....	107
5.16.5. Conclusion.....	108

CHAPTER 6 : APPRAISAL

6.1 Summary and Conclusion:	10810
6.1.1. Glycaemic control through <i>Yoga</i>	110
6.1.2. Retrospective study	110
6.1.3. Multi-centric RCT	111
6.1.4. Restoration of homeostasis.....	111
6.1.5. Comparison of Biochemical variables	112
6.1.6 Strengths of study.....	113
6.1.7. Limitations of the study.....	114
6.1.8 Recommendations	115
6.1.9 Suggestion for Future work.....	115
REFERENCE.....	12916
PERCEIVED STRESS SCALE.....	1299
DDS.....	13030
Appendix 2	1333
Appendix 3	1344
INTEGRATED MODULE OF <i>YOGA</i> FOR DIABETESMELLITUS	1344
<i>YOGA</i> ASANAS	136
Section F <i>Yoga</i> module	14040
Daily Practice Schedule	141
Appendix 4	133
Raw Data	133
